

ALASKA DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES

FACT SHEET

Parks Highway Systemic Passing Lanes MP 123.5 to 163

Project Numbers (Design) Z573010000, (Construction) CFHWY00128

Project Scope

The Alaska Department of Transportation and Public Facilities (DOT&PF), in cooperation with the Federal Highway Administration (FHWA), is working on a project to improve safety by increasing passing opportunities along the Parks Highway. This is the third phase of a Highway Safety Improvement Program project adding a total of 18 passing lanes along the Parks Highway between MP 83 and MP 163. Phase 1 will add four passing lanes between MP 83 and MP 99; Phase 2 will add six passing lanes between MP 99 and MP 123.5. Phases 1 and Phase 2 are currently under construction.

This project, Phase 3, will provide eight passing lanes along the Parks Highway from approximately MP 123.5 to MP 163. Each passing lane will be roughly 1-mile long. The approximate locations are noted below. The project also includes signing, striping, and guardrail improvements.

- MP 127.3 to 128.4, construct southbound passing lane
- MP 128.6 to 130.0, construct northbound passing lane
- MP 136.2 to 137.1, construct southbound passing lane
- MP 137.5 to 138.9, construct northbound passing lane
- MP 144.8 to 146.0, construct northbound passing lane
- MP 149.5 to 150.5, construct southbound passing lane
- MP 156.8 to 158.8, construct southbound passing lane
- MP 161.5 to 163.0, construct northbound passing lane

Schedule

Construction is anticipated to begin in 2019. The project is currently in the environmental and design development phase.
